

GETTING READY  
FOR NEW PLAYMany Applicants for Parts in  
"Corlanton."

## LOOK FOR STAGE DIRECTOR

FIRST READING REHEARSAL  
WAS HELD LAST NIGHT.

A HALF HUNDRED recruits for the chorus of "Corlanton," the book of Mormon play to be produced here in August, experienced their first insight of stage life yesterday afternoon and last night. In the afternoon applicants were put through examinations. At night they participated in the first reading rehearsal.

The preliminary work of getting a company for the play is in the hands of Wesley K. Walton, secretary of the company, and George W. Thatcher, Jr. They opened their offices in Social hall yesterday and were engaged all day in "trying out" would-be actors and actresses. This "trying out" process is not a serious one, as they went through it yesterday can testify.

To begin with, there are about 100 applicants and about forty places. So it is a case of accepting anybody and everybody.

There is to be a ballet in "Corlanton." It is one of the biggest features of the play. Hence, all who take part in it must be of the right type. They are selected on the basis of looks, for grace and for height, and if they are at all pleasing in these respects, they are given a chance to sing. The "probabilities" of the less favorable classed as "possibilities," and still others are turned away from the room at the start.

The next important qualification is voice. "Corlanton" has several singing choruses, and the girls and boys accepted must be able to sing some. Mr. Thatcher, with the aid of a pianist, had the applicants sing scales yesterday and he checked down each one's percentage in his little book. It rests with J. H. Lewis, who is to stage the play, to make the final selections. He has the power to accept or reject applicants. The stage director is expected to come from New York.

Mr. Walton believes he has among the 100 applicants at least fifty perfect specimens of manhood and womanhood. They are from all parts of the state, and include some of the aspirants for historic distinction who have made themselves well known in local productions. A number of the men are returned Mormon missionaries and several of the girls belong to prominent religious organizations of the Mormon church. These take a peculiar interest in the play, on account of its origin.

There are tiny speaking parts for a number of them. Mr. Thatcher, who tried them also for dramatic ability, believes the home talent will "make good." If so, some of them will be offered parts for the road tour when the chorus goes to the play. Mr. Hawthorth will not arrive for ten days or more, and it will be long before things are really going with the company.

O. U. Benn, who has received word from New York that in all probability Charles Frohman, the theatrical magnate, will attend the opening of "Corlanton" in this city Aug. 8. As this is a thing Mr. Frohman has not done even in New York since Adam was a boy, the young actor is elated over the prospect.

## CUT DOWN ASSESSMENTS.

Still Total in County This Year Will  
Be Greater Than Last.

After having held thirteen sessions and reduced the assessment of property in Salt Lake City and county over \$1,500,000, the county board of equalization took a final adjournment yesterday afternoon. One of the closing acts of the board was to reduce the 10 per cent reduction in the assessed valuation of improvements in the city, and real estate in the county outside of the city. The improvements had been assessed at \$1,000,000, and the real estate at \$2,000,000, a total of \$3,000,000. The 10 per cent reduction decreased the aggregate by \$300,000.

This was in addition to other reductions made by the board for the purposes of equalizing the taxes. The aggregate of all the reductions was \$1,500,000. Notwithstanding these reductions, however, the total assessed valuation will be more than it was last year, or about \$4,000,000, as compared with \$4,042,744 in 1901.

Yesterday was by far the busiest day that the board has experienced since its work began, as evidenced by the number of complaints acted upon and the reductions made. The complaints numbered 164 and the results are as follows: Reductions in valuation, \$119,682; taxes abated, \$318. Among the large reductions were the following: Asahen Livestock company, assessed at \$48,000 on personal property, reduced in the sum of \$14,825; \$22,500 of which was on account of a double assessment; P. W. Madsen, assessed for \$20,000 on personal property, reduced \$4,000; Hyman Harris, assessed \$30,000 on real property, reduced \$3,000; Highland Boy Mining company, assessed for \$90,000 on improvements, reduced \$7,500; Utah National bank, assessed for \$70,000 on personal property, reduced \$2,812.

## ANTI-SHEEP MOVEMENT.

Property owners and persons living in the Little Cottonwood (Alta) mining district, have done much to reduce the vegetation, roads and the waters of the Little Cottonwood and tributary canyons from destruction by sheep.

## Hot Weather Weakness.

If you feel fagged out, listless and lacking in energy, you are perhaps suffering from the debilitating effects of summer weather. These symptoms indicate that a tonic is needed that will create a healthy appetite, make digestion perfect, regulate the bowels and impart natural activity to the liver. This Herbine will do it; it is a tonic, laxative and restorative. H. J. Freagard, Propr., Grand View Hotel, Cheney, Kan., writes: "I have used Herbine for the last twelve years, and nothing on earth can beat it. It was recommended to me by Dr. Newton, Newton, Kan." 50c at Z. C. M. I. Drug Dept.

## STREETS IN A BLAZE

How the Elks Propose to Illumi-  
nate the City During the  
Big Convention.

The illumination committee of the Elks met yesterday afternoon at the Elks club building to discuss the plan of illuminating the city during the convention. The committee was composed of the following members: W. H. Clark, chairman; J. H. Lewis, secretary; and J. H. Lewis, secretary.

The plans for lighting the streets of the business section are very similar in character, providing for reasons of convenience, lights to be hung across the streets during the convention. The lights are to be hung across the streets to be illuminated from the poles on the sidewalks to those in the center of the thoroughfares. Each bid calls for between 4,000 and 5,000 lights of various colors. In addition to the festoons there will be a number of set pieces, to be erected at the intersections of Main street and State and First and Second streets.

The bids submitted to the committee call for but three pieces. The committee is anxious to have five, six if possible. That may necessitate a change being made in the bids submitted. Where to feed the thousands of visitors who will come to Salt Lake during the Elks' convention, who will not be able to get into the hotels but will have to sleep in rooming houses, private residences and the Pullman cars, is the serious question which now confronts Thomas Homer, chairman of the committee on accommodations. The hotels, restaurants and boarding houses cannot take care of them all; of that fact the committee is satisfied. Assistance has to be secured from those who are willing to give it, and the committee has appealed to the churches within a radius of two miles of the city. A circular letter, succinctly setting forth the true condition of affairs and explaining the co-operation desired, is being sent to the pastors of the Protestant churches and the bishops of the Mormon church.

New life was injected into the Elks' financial committee yesterday when the new chairman, W. H. Clark, took official charge. He opened headquarters in the Elks' club building, and throughout the afternoon was in close communication with the other members. Those who did not call upon him in person were reached by telephone. They all reported collections progressing splendidly. The citizens are being urged to contribute liberally. During the afternoon Mr. Clark revised the sub-committees and appointed a number of new ones.

## NO TRUTH IN STORY.

Collector Callister Denies That His  
District Will Be Divided.

A story originating in one of the Portland papers has been in circulation in this city to the effect that the interior of the state will be divided into Utah, Idaho and Montana at the beginning of the fiscal year, July 1, and Idaho and Montana annexed to the district having Portland instead of Salt Lake for headquarters. In the opinion of Collector Callister, the story of the change has no foundation in fact. Only very recently Collector Callister received notice of the allowances fixed for his department and office for the next fiscal year, his notice containing an approval of his official staff and organization as now constituted. In view of this, and the further fact that no intimation has come from Washington of the change in Portland's favor, the collector is certain that no division of the Utah, Idaho and Montana collection district is contemplated before the close of the next fiscal year at the earliest.

Collector Callister is anxious that all concerned may take notice that after July 1 all of the war revenue taxes are abolished. Stock certificates, deeds, mortgages and like instruments, brokers, bill of lading, amusement resorts and all other taxes mentioned in the war revenue stamp classifications will be non-taxable.

## ANOTHER HOT DAY.

Thermometer Reached the 96 Mark  
Yesterday.

It couldn't have been less than 119 degrees yesterday, unless you saw the thermometer. It was one of those frying days that the people of this city are accustomed to, and yet it seemed longer and hotter than the day before. In its effort to break the record of 88 degrees of Sunday, the mercury did some funny and unusual things. It rose higher than 96 all day. At noon the thermometer was 96. During the next hour the mercury tumbled down to 82. It climbed until 2 o'clock, when it was 92, and after a maximum of 96, at 4 in the afternoon, the decline was gradual. It held out but little hope for the stewing community. He predicts slightly cooler weather for tonight, but it will be "slightly cooler" and you can't notice the difference. Meanwhile, the people are resort-mad. Saltair is the place to go. The canyons are lined with people seeking shelter from the scorching heat.
